REPORT OF SCHOOL BOARD.

The school board of Nelson herewith present their annual report.

It has been the aim of the board to secure the services of experienced and competent teachers, and we believe that the results give evidence that our efforts have been rewarded.

The spring term at No. 1 was taught by a teacher of several years experience. The best of order and discipline was maintained and the progress made in general school work was most gratifying.

The fall term was taught by a teacher of some experience and one fully devoted to her work. The board was well pleased with the progress being made, when the whooping cough made its appearance among the pupils, which so reduced the number able to attend school that we deemed it unprofitable and therefore unwise to try to continue the term longer. The school closed without examination, although it had kept but six weeks and two days. On account of this, we think as much time as possible should be given to this school in the year to come.

The teacher in No. 2 was employed for both terms. She was a teacher of experience and proved herself a thorough disciplinarian also one well qualified for her work. The results accomplished for the year were very satisfactory.

Repairs have been made on the schoolroom in No. 1, which has added to its cheerfulness and we believe it will be appreciated by the teachers and scholars in time to come.

The schoolhouse in No. 2 has received a new coat of paint that adds much to its attractiveness. If the school yard could be graded and grassed over, we believe it would be a much needed improvement. We wish to thank the parents, scholars and friends who have so heartily cooperated with us to make the school year a success.

Respectfully submitted,

JAMES E. RUFFLE,

GEORGE S. PAGE,

School Board of Nelson.

REPORT OF BOARD OF HEALTH.

To the Honorable Board of Selectmen and Citizens of the Town of Nelson, N. H.

The local board of health submit the following report of the conditions of the public health, coming to their notice, during the year ending Feb. 15, 1902.

The town has experienced considerably more sickness than has usually fallen to her share, due probably, more to climatic conditions rather than physical. There have been three cases of typhoid fever, all traceable in the judgment of your board to one source.

There has also been two cases of diphtheria, one of which resulted fatally and resulting in establishing a quarantine upon two families, which was strictly maintained, and by our personal attention and constant fumigating prevented the disease from spreading. There have been several cases of whooping cough, tonsilitis and kindred diseases of more or less severity.

The board has received several complaints of nuisances. We have investigated them and when necessary have caused them to be abated. The board in the performance of their duties are brought to face many unpleasant conditions, and we wish to thank those who have at any time assisted us.

All of which is respectfully submitted.

W. S. MANSFIELD,
Chairman.
V. C. ATWOOD,
CHAS. L. BARRETT,
Board of Health.
